60 -69	D	1	Pass
Below 60	F	0	Fail

Course Code: A unique combination of letters and numbers that represent a subject taught in university.

Credit Hour (CH): A unit to quantify the weight of a course. One credit hour represents one lecture hour per week in a regular semester of 16 weeks, or 16 contact hours (teaching hours) per semester.

Grade: Is the representation of obtained marks percentage through an alphabet, range from A - F

Grade Points (GP): Is the numerical representation of grade, range from 0-4.

Total Credit Hours (CCH): Computed by summing the credit hours for all courses attempted in the current and previous semesters in which the student has received letter grades.

Marks Obtained: The representation of student evaluation in a course by course lecturer. It includes internal evaluation and final evaluation marks. All courses are evaluated out of 100 marks.

Average Marks: The average of marks obtained in all completed courses.

Cumulative Grade Points Average (CGPA): CGPA is the mathematical average of grades of all courses completed in a program. CGPA is calculated by adding up all final grades and dividing that figure by the number of courses

DEGREE REQUIREMENTS

In order to receive the official transcript and degree a student should fulfill the minimum requirements. For undergraduate program the minimum requirement for a degree is to achieve 138 credit hours and secure 2.0 or higher CGPA (including credits transferred courses).
